#### COMMUNICATION ON THE GO.

The VAIO® UX Micro PC is communications-ready, with integrated camera and built-in microphone and speakers, so you're equipped to communicate via VoIP<sup>12</sup> (Voice over Internet Protocol) virtually anywhere WLAN<sup>3</sup> or WWAN<sup>13</sup> service is available.

#### INGENIOUS DESIGN.

An integrated keyboard and stylus allow you to choose the input method you prefer. VAIO® Touch Launcher and Instant Command enable quick and easy program access, and the biometric fingerprint sensor stores your passwords so you can access applications and secureweb sites without having to type them. And the UX Micro PC really makes smart use of all its display space. With control buttons for zooming, scrolling, and a stick pointer, as well as the ability to view in either landscape or portrait orientations, you know you'll be able to view documents, applications, and media in the most appropriate way.

The VAIO® UX Micro PC puts the world in your pocket and at your fingertips. The ultra-portable full-functioning PC is designed for productivity and entertainment on the go with a 4.5" wide SVGA screen<sup>11</sup>, Intel® Core™ Solo processor, Windows Vista™ Business<sup>14</sup>, and integrated wireless LAN<sup>3</sup>, wireless WAN<sup>13</sup>, and Bluetooth® technologies<sup>5</sup>.
